SUMMARY

Full Stack JavaScript Developer with hands-on experience building and deploying web applications using React.js, Node.js, Express.js, TypeScript, MongoDB, Redis, and AWS. Developed scalable backend systems featuring authentication, authorisation, file storage, caching, secure REST APIs, and modular architectures. Passionate about software engineering, problem-solving, and building reliable and maintainable applications using modern development practices.

PROJECTS

Social Media Backend API
- Developed a scalable social media backend using Node.js, Express.js, TypeScript, MongoDB, Redis, AWS S3, GraphQL, and Socket.IO.
- Built secure REST APIs and GraphQL APIs for user management, post management, profile handling, and file uploads.
- Implemented JWT Authentication, Refresh Token Rotation, Google OAuth, Role-Based Access Control (RBAC), and session management.
- Integrated Socket.IO to enable real-time features and improved application performance using Redis caching.
- Applied Zod for request validation and followed a modular architecture using the Repository Pattern.

Saraha Clone Backend API
- Developed and deployed a secure backend system for an anonymous messaging platform using Node.js, Express.js, MongoDB, and Redis.
- Built secure REST APIs and implemented JWT Authentication, Refresh Token Rotation, Google OAuth, OTP Email Verification, Role-Based Access Control (RBAC), and session management.
- Implemented secure file uploads using Multer with local file storage.
- Applied security best practices, including Helmet, CORS, Rate Limiting, Password Hashing, and Joi validation.
- Designed a modular and maintainable backend architecture following software engineering best practices.

Bookmark
- Developed a responsive bookmark management application using HTML, CSS, and JavaScript.
- Implemented CRUD operations, input validation, and Local Storage for persistent data storage.
- Designed a responsive and user-friendly interface.

Product Management System
- Developed a product management system using HTML, CSS, and JavaScript.
- Implemented CRUD operations for managing product records.
- Added search functionality to quickly filter and locate products.
- Used Local Storage to persist data across browser sessions.

SKILLS

- **Languages** — JavaScript, TypeScript, Python, C++
- **Backend** — Node.js, Express.js, REST APIs, GraphQL, Socket.IO
- **Authentication & Security** — JWT, Refresh Token Rotation, Google OAuth, RBAC, Helmet, CORS, Rate Limiting, Joi, Zod
- **Databases** — SQL, MongoDB, MySQL, Redis, Database Design, Data Modeling
- **Cloud** — AWS EC2, AWS S3
- **Tools** — Git, GitHub, Postman, Multer
- **Frontend** — HTML5, CSS3, React.js, React Query
- **Development Methodologies** — Agile

EXPERIENCE

Telemarketer 02/2024 – 04/2025
Proper Business Solutions for call center services
- Conducted targeted cold calls to potential real estate clients, pitching commercial and residential property offerings.

Social Media Specialist 08/2023 – 12/2023
Egypt Link
- Developed social media content plans to improve online visibility and brand positioning.
- Created and managed targeted paid ad campaigns on Facebook and Instagram to boost reach and generate qualified leads.
- Monitored platform performance metrics to optimize ad spend and refine content strategy.

Marketing Specialist 07/2022 – 07/2023
Kimanil company for Industrial Consulting and Training
- Created and published engaging digital content across channels to boost target audience reach and brand engagement.
- Communicated directly with prospective and existing clients to handle inquiries and maintain professional partnerships.

Moderator 06/2021 – 05/2022
Qudra
• Accurately processed and tracked customer orders to ensure timely fulfillment.
• Efficiently resolved customer issues and complaints to maintain high satisfaction rates.

EDUCATION

Bachelor's Degree in Chinese Specialized Translation 2022
Ain Shams University
